Hon. Madialo: Mr. Speaker Sir, I beg to give a Notice to the Motion;

THAT AWARE THAT, part 2, section 11 (a) of the Fourth Schedule of the Constitution of Kenya, 2010 mandates the County government with the function of County public works and services including storm water management in built up areas;

FURTHER AWARE THAT, Section 74 (1) (d) of the Mombasa County Environmental Health and Sanitation Act, 2017 stipulates that the maintenance of all sanitary fitments, waste pipes, soil pipes, drains, drainage connections and other drainage fittings and accessories should be in good order and condition;

NOTING THAT, proper drainage systems play a vital role in safeguarding the well-being and safety of residents by preventing flooding, mitigating the spreading of waterborne diseases, and protecting our environment;

Moreover, the presence of houses and veranda which are constructed on drainage systems poses a significant threat to public health and environment;

Hon. Madialo: I ask Honourable Frankline Makanga, the Honourable Member from Chaani to second.

Hon. Makanga: Thank you Honourable Speaker, I second.

The Deputy Speaker (Hon. Fadhili Makarani): Honourable Members, I now propose the question that the Motion by Honourable Jacktone Madialo on cleaning of drainage system in the County be considered by the House.

[Question proposed and agreed to]

The Deputy Speaker (Hon. Fadhili Makarani): Yes, Honourable Jactone Madialo?

Hon. Madialo: Ahsante sana Bwana Spika kunipatia fursa hii tena. Ningependa kuomba kwanza wenzangu ya kwamba tupate kuunga hoja hii mkono; ninaichukulia kwa uzito maana ni hoja muhimu sana maana ndiposa hata Bwana Spika ukiniona vile nimevaa sijawahi kuwaa manna hii tangu niingie Bungeni...

[Applause]

Maana ninachukulia hoja hii kwa uzito sana. Tunajua serikali kuu ilitangaza kwamba kutakuwa na *El Nino* hata ingawaje zile siku ambazo walisema itaanza, haijaanza lakini dalili ipo ya kwamba hatakama hakutakuwa na mvua nyingi ya kupindukia, kutakuweko na mvua na jana nilipokuwa nikija hapa Bunge kulinyesha mvua ambapo haikuwa kubwa sana lakini tuliona dalili kwa mbali ya kwamba kama mambo fulani haswa ya kusafisha mitaro ya maji taka, isipofanywa kwa haraka na kwa ustadi basi janga hili linaweza kukumba watu wengi na nyumba nyingi zinaweza kuathirika na zinaweza kubomoka. Kwangu mimi ni kuomba Waheshimiwa hawa wakapate kuunga hoja hii mkono; ni kwamba tunataka idara husika ijitahidi kuhakikisha kwamba ile mitaro ya maji taka imejengwa mahali ambapo zatakikana zijengwe na zile nyengine ambazo zinatakikana zifanyiwe ukarabati, zifanyiwe ukarabati. Hata hivyo pia tumekuja kuona kwamba kumekuwa na uzembe na utepetevu mahali na pia wakaazi wa Mombasa hawaja chukua jukumu lao kuhakikisha mazingira yako sawa na mazingira ni safi.

Ningependa kuwapatia mfano mmoja kutoka Mikindani; hiyo mitaro ya maji taka iliyojengwa Mikindani ilijengwa nikiwa mtoto mdogo katika miaka ya themanini nilikuwa ninaishi pale barabarani kuingilia Mikindani kulikuwa kunaitwa Riat kitambo. Sasa hivi kunaitwa Kibaoni mahali (??) amejenga kampuni yake. Hiyo mitaro ilijengwa wakayi huo mapema miaka ya themanini na ilikuwa ni sawa kabisa lakini sasa hivi zaidi ya miaka thelathini sehemu nyingi imefukiwa michanga na hii miezi iliyopita pamoja na idara nilijaribu kabisa kufuatilia na tukachimbua zengine ambazo zilikuwa zimewekwa michanga na hata wakaazi wa Mikindani wakawa wamepigwa na butwaa, wakawa wanashangaa wakasema kumbe kwani hapa kulikuwa na mitaro ya maji taka, walikuwa hawajui kwa sababu kwa muda mwingi watu walikuwa wamezembea na wenye majumba ama wenye majumba ambao wako karibu na mitaro ya maji taka walikuwa hawajali kama watu wanatupa taka hapo, wanaweka michanga hapo.

Pia wale watu wanajua Mikindani; mvua ikinyesha hata hapo kati kati ya Mikindani mahali kuna hiyo *social hall*, hapo hapo kuna polisi huwa maji yanajaa hapo katikati ya barabara si kwa sababu ya jambo lengine kwamba hakuna maji taka iko lakini ilifukiwa na hapo tulijaribu pia kuna wengine ambao walijenga nyumba zao na pia wakajenga varanda kuelekea kwa hiyo mitaro na wakafunika hiyo mitaro. Mikindani tumeshafungua varanda zengine na tunashukuru kuwa wengi wemeshatuunga mikono na maji tayari kwa uchache yameanza kutiririka sasa. Hatuwezi kuwa na janga kama ilivyokuwepo hapo awali ndiposa ningependa na pia jana nilikuwa naongea na Mheshimiwa wa Mji wa Kale pia yeye akaniambia pia yeye kuna mahali ambapo walifukuwa ikagundulika watu walikuwa wanafikiria hakuna mtaro wa maji taka, wakawa *sweetly surprised* kwa mabano ya kwamba kumbe hapo huwa kuna mtaro wa maji taka ambao ulijengwa na wakoloni.

Kwa hivyo tunaweza kusema hivi, tukiwa *responsible citizens* janga lengine hazitakuwa zinaweza kutukumba. Hivyo basi ombi langu katika hii hoja ni kwamba na mwengine pengine anaweza kujiuliza kwamba je si tunapeana sana majukumu mengi kwa wananchi ambapo hawawezi kujukumika nalo. Hatuulizi mambo mengi kwa wananchi, kupitia hoja hii kile ambacho tunauliza kwa wananchi ni kwamba wizara ikishafungua mitaro, ikishasafisha mitaro, iwe jukumu lako wewe ambapo uko na nyumba yako ama biashara yako ambapo imekaribia huo mtaro wa maji taka kuhakikisha kwamba hakuchafuliwi. Hiyo ni kuwa raia mwema na tukifanya hivyo usiruhusu mtu aje atupe takataka kwa mtaro wa maji taka ambapo uko karibu na nyumba yako ambapo iko karibu na biashara yako na kupitia hiyo nikiendelea hivyo itakuwa imefunikwa na mvua ikinyesha maji itakuwa imekwama na manyumba yatabomoka na pia biashara yako itakuwa imeathiriwa.

Tukifanya hivyo basi tutakuwa Mombasa mambo ya mafuriko na mambo ya manyumba kubomolewa na maji itakuwa ni jambo ambapo tumeliweka katika kaburi la sahai. Kwa hivyo singependa kuwachosha Waheshimiwa maana jambo hili ni jambo ambapo ni wazi na nashukuru kwamba Waheshimiwa nyinyi mumesafiri, Mungu amewajalia mumesafiri hapa na kule na mukaona miji ambayo watu raia wako na uadilifu wa hali ya juu na pia serikali imejukumika katika kazi zake, na miji hiyo ni miji misafi. Kwa hivyo sisi hatukuzaliwa ama sisi hatuabudu *a lesser God* kushinda hao na pia sisi ni wanadamu kama hao na pia sisi tunaweza sababisha Mombasa iwe bora ama iwe hio miji ambapo tukienda kutembelea tunatamani. Ahsanteni sana Waheshimiwa, ahsanteni sana Spika naomba niunge mkono katika hoja hii. Ahsante.

The Deputy Speaker (Hon. Fadhili Makarani): Thank you. Yes, Honourable Solomon Ngugi.

Hon. Ngugi: Ahsante Mheshimiwa Spika kwa kunipa nafasi hii. Nitangulize kumshukuru Mwenyezi Mungu. Mheshimiwa Spika na mimi nimesimama hapa kuunga mkono na nina uhakika una ufahamu kamili kuwa mimi ni mwakilishi wa jamii yenye kuishi na ulemavu ndani ya Mombasa. Hili jambo anavyosema Mheshimiwa mwenzangu hii mitaro inapojaa inawapa changamoto wale wenye nguvu zao kwa mlemavu ni mara nne zaidi na muna ufahamu kamili. Kunao wale wanaotumia baiskeli, wengine wanatembea kwa magoti, wengine wanajiburuta chini na inapokuwa maji taka yametapakaa sehemu wanayokaa ni hatari sana kwa afya yao. Mimi niwaombe Waheshimiwa wenzangu, kwa unyenyekevu sehemu unayotoka najua kila mmoja wenu hizo kata ndogo munazotoka zinao watu wenye kuishi na ulemavu, hili jambo tulitieni mkazo lisiishie hapa. Lipitishwe kwenye hili Bunge na lifuatiliziwe mpaka vitendo vitendeke kama alivyosema Mheshimiwa mwenzangu yule mwenye kuishi hiyo nyumba yeye ndio macho wa ule mtaro, yeye ndio atakae ulinda na yeye ndio atakae haribu. Ikiwa atakubali mtu mwengine atupe taka pale aziwache zirundikane mpaka kufungike hasara itanza kwake yeye na majirani zake waliokua hapo ndani. Sasa ni yeye ni jukumu liwe kwake yeye maanake yeye usalama unaanza kwake yeye kama ni afya nzuri atanza kupata yeye ikiwa itatokea ni kipindupindu hiyo nyumba yake iko karibu na mtaro ndio itanza, hana uwezo ni apige ripoti maanake tunajua sehemu zetu ziko katika tumeshukuru sehemu nyingi tunazotoka ziko sehemu ambapo wako maaskari wetu wa Kaunti ukifikisha ujumbe huo kuwa huyo mtu anatupa takataka kwenye mitaro ataleta athari katika mitaro yetu watachukua hatua. Sina mengi Mheshimiwa Spika yangu ni hayo. Ahsante.

The Deputy Speaker (Hon. Fadhili Makarani): Thank you. Yes, seconder of the Motion. Honourable Makanga.

Hon. Makanga: Ahsante Mheshimiwa Spika na mimi nasimama kuunga mkono hoja hii iliyoletwa na Mwakilishi Wadi wa Mikindani, mchungaji ambae ni mmoja peke yake katika Bunge hili. Mheshimiwa Spika katika mazungumzo yake alisema mitaro ya maji taka lakini ningeomba labda Kiongozi wa Wengi, Wallah Bin Wallah wa Bunge hili Mheshimiwa Mwamwiri labda atufafanulie *storm water* kwa sababu maji taka nafikiri ni ile inabeba *sewerage*. Kwa hivyo nafikiri kwa sababu inafaa kwenda kwa kumbukumbu ikiwa sawa ndio iweze kufanyiwa kazi kisawa, labda Kiongozi wa Wengi utuelekeze ni maji taka ama maji ya mvua maana *storm water* nimeangalia *storm* kwa Kiswahili inasema tufani. Sasa hiyo tufani naona sasa inanishtua inakaa ile ya filisti na Izraeli, kwa hivyo tuongoze kwanza kiongozi kwa Kiswahili alafu tuendele tafadhali. Mheshimiwa Spika naomba.

The Deputy Speaker (Hon. Fadhili Makarani): Honourable Makanga, please proceed in building your Motion because you are out of order!

Hon. Makanga: Ahsante Mheshimiwa Spika ni Kiswahili kinanititiza kwa sababu kutafsiri kidogo kizungu kwa Kiswahili ndio changa moto ila hata hivyo Mheshimiwa Spika nasimama kuunga mkono hoja hii mia fil mia Mheshimiwa Spika nikizingatia yale ambayo yametajwa hapa ni masuala muhimu sana. Mheshimiwa Spika suala la kwanza kabisa ni alivyoelekeza na alivyoomba kwamba Bunge hili lipitishie kwamba wenye majumba ambayo yako mkabala na mitaro hii ya maji ya mvua wachukue jukumu. Pili, namuunga mkono Mheshimiwa Spika kwa sababu umepata uchafuzi wa mitaro ile kwa mara nyingi ufanyika na aidha wapangaji walioko kwa majumba yale ama yule ambaye amejenga ile nyumba hajawawekea wale wapangaji mahali pa kuweza kutupa taka zao na mitaro ile inapojaa lalama huwa zinarudishwa kwa Mwakilishi Wadi na Wadi *Administrator* lakini wakati wanachukua kodi wanaofaidika ni wale wenye yale majumba Mheshimiwa Spika. Suala lengine ambalo Mheshimiwa ameomba ni kwamba idara inayohusika iweze kuangazia wale ambao walijenga juu ya mitaro; hili ni donda sugu ndani ya Mombasa na leo hii mahali popote ambapo utapata maji yamefurika ukiangalia katika mipangilio ya majumba utapata kuna mmoja alijenga katika njia ya maji. Sasa maji yakija yanakosa kutembea kwa njia inayostahili na siku zote maji lazima yatembee na yakikosa njia yake Mheshimiwa Spika bado yatatafuta njia ya kuweza kupitia.

Kwa mfano, Mheshimiwa Spika katika Wadi yangu nishakwenda mimi na maofisa kutoka kwa idara ya mipangilio na majumba katika Kaunti hii na wakaenda wakaona mahali ambapo hao wenyewe walipeana idhini ya hiyo nyumba kujengwa. Mheshimiwa Spika cha kushangaza nilipowauliza maswali mbele ya mwenye nyumba walichanganyikiwa na wewe unaweza jijazia kile unafikiria kwa akili yako Mheshimiwa Spika naona umejishika vizuri ndio hicho hicho ambacho kilifanyika. Kwa hivyo Mheshimiwa Spika, Mheshimiwa anapoomba kwamba yale mavaranda ama majumba ambayo yamejengwa kupitiliza ya kazidi viwango vya ploti yao wakajenga kwa njia za maji kulingana na sheria wakajenga mahali ambapo ingetupea urahisi wa kusafisha mitaro na sasa imekuwa ngumu kusafisha kwa sababu wamejenga majumba juu ya mitaro suluhu. Mheshimiwa Spika ni Hoja ya Mheshimiwa wa Mikindani anayesema na ambaye tunajua alipigiwa kura nyingi zaidi ndani ya Jomvu iweze kupitishwa na Bunge hili tuweze kuendeleza mbele ili tuone inafanyiwa kazi. Kwa hivyo Mheshimiwa Spika mimi pamoja na wana Chaani na nguvu zangu zote ambazo ziko ndani ya mwili na za kiroho nasimama kuunga mkono Hoja hii. Ahsante Mheshimiwa Spika.

The Deputy Speaker (Hon. Fadhili Makarani): Thank you Honourable Makanga the newest Member in the Speaker's Panel...

[Applause]

And I hope you will be following the practices of the Assembly thank you. Honourable Hamida?

Hon. Noor: Thank you, Mr. Speaker, I stand to support the Motion. Mr. Speaker Sir, as you are aware the government has announced for us that we are going to be having El Nino that is coming up, though the El Nino has not reached us but we can see the signs that we have rains that are coming and the rains that we are having nowadays are not the ones that we used to have, there is climate change with us right now and where I come from in my Ward Mkomani.

I can see there are some things that are going on drainage, but Mr. Speaker as you know in Mombasa when we get the rains, we have the problems even if it is a short time there is a lot of water on our roads that means that there are existing drainages along the road. But I think without doing maintenance that is why we are getting a lot of water on the roads but for now that we have come up with this Motion I think it is going to help us in the Department that is concerned that before the *El Nino* that are coming up that we are going to do our diligently duty to clean up the drainages because Mr. Speaker as we are aware that the rains that are now with us in the world are not the ones that we are used to, right now we have seen in Israel Televiv. We have seen in other parts of the world that here we are having a weather change in the world so if we are not going to take precautions to have our drainages clean, I think we are going to have the same thing, we are in a small island and please let us do our diligently duty to clean our drainages. In those few remarks I say thank you.

The Deputy Speaker (Hon. Fadhili Makarani): Thank you. Yes, Honourable Mwalimu Juma?

Hon. Juma Mwalimu: Ahsante sana Mheshimiwa Spika kwa kunipatia fursa hii, mimi nimesimama kuunga mkono mswada huu ulioletwa na rafiki yangu kipenzi Jacktone Madialo. Mheshimiwa Spika kama tunavyojua sisi waswahili tunamisemo yetu ya kwamba tujitahadhari kabla ya hatari kwa hivyo hatari inakuja juu tulitangaziwa kutakuwa na mvua kubwa ya El-nino na ukiangalia mitaru yetu, mashimo yetu yamejaa uchafu eidha michanga, makaratasi, chupa mawe, nguo, pampers vitu vingi tu. Kwa hivyo huu ni wakati mwafaka wa huu Mswada uweze kutekelezwa ili ile *program* yetu ya wale vijana wetu Mombasa ni yangu iweze kurudishwa ili hii kazi ya kuzibua yale mashimo na mitaru waweze kufanya kwa haraka iwezekanavyo. Ahsante sana Mheshimiwa Spika na ahsante Mheshimiwa Madialo kwa kuona mbele kama twiga. Ahsante sana.

The Deputy Speaker (Hon. Fadhili Makarani): Yes, the Leader Majority?

The Leader Majority (**Hon. Athman Mwamwiri**): Ahsante Mheshimiwa Spika. Mheshimiwa Spika nimesimama kuunga mkono Hoja hii ili niendeleo nitarudi katika ombi la ndugu yangu wa Chaani aliyetaka ufasaha katika lugha teule ya hususan jambo hili ambalo mdhamini wa hoja hii amenukuliwa akisema maji taka akimaanisha *storm water*. Mheshimiwa Spika katika hii kuna mambo mawili; kwanza maana halisi tukiteua kutokana na kiingereza *storm* itakuja katika maana maji ya dhoruba ama maji ya tofani yaani yenye uzito zaidi, lakini kusudio la Mheshimiwa katika swala hili la maji taka yeye alikusudia haikupaswa kuwa maji taka lakini kifasaha ni maji machafu. Maji machafu ni maji ambayo chanzo chake ni maji asili kama mto ama mvua, asili yake ni maji yanatokana na mvua. Kwa hivyo ni maji asili lakini yanapodondoka na kutembea katika mitaru huweza kuchanganyikana na taka taka za aina mbalimbali.

Hivyo basi maji yale yanageuka yanakua maji machafu, iwapo yataweza kukingwa kabla kuchanganyika na uchafu yanabakia kuwa maji masafi kama ilivyo katika baadhi ya mito. Lakini tunapokuja katika maji taka Mheshimiwa Spika lazima liwe limechanganyikana na shughuli za nyumbani na kwenye viwanda na taasisi hususan yenye mwingilio na chooni ndio hayo tunayaita maji taka. Kwa hivyo Mheshimiwa katika ufasaha ilipaswa kuwa maji machafu, Mheshimiwa Spika nikiendelea katika kuunga mkono hoja hii ni jambo la busara kuwa ipo haja ya kuwahimiza wananchi wetu, jamii zetu kuwa na utamaduni wa kujijali na kuchukua hatua wao pasi na kutegemea mtu wa pili ama serikali kuu.

Mheshimiwa Spika, uchafu huu unaouchafua maji asili yanatokana na shughuli zetu na jinsi tunavyojenga katika majumba, haidhuru au haigharimu mtu yoyote kuhakikisha kuwa sehemu anayoiwakilisha yeye, kwa sehemu anayoishi yeye amechukua hatua ya kwanza kuweza kusafisha binafsi katika sehemu ile na yeye kuwa chachu ya mwengine lakini anayemfuata kuweza kusafisha. Hivyo basi hata katika serikali itatumia rasilmali kidogo katika ufuatili na kuhakikisha ya kwamba hali ile imeweza kuboreshwa na gharama ile ya ziada itaweza kutumika katika maswala ya kuboresha zahanati zetu, katika maswala ya kuboresha taasisi zetu za kielimu itazidi kuboresha maswala yetu ya mataa ya barabarani na kukabili swala la utovu wa usalama ikiwa kama jamii yale madogo tunaweza kuchukua hatua. Kwa hivyo mimi naunga mkono na niwaambie Waheshimiwa wenza katika kuunga mkono hoja hii ili pia tuchukue hatua sisi wenyewe kule tunakotoka na jamii tunazo wakilisha na kuanza hamasa hii ya kutekeleza hoja hii kabla hata serikali kuweka sheria madhubuti yakuweza kuwakabili watakaokuwa wanakwepa amakuvunja hali hii Mheshimiwa Spika. Ahanste Mheshimiwa Spika naunga mkono.

The Deputy Speaker (Hon. Fadhili Makarani): Thank you, I now call upon the mover of the Motion to reply on his Motion.

Hon. Madialo: Thank you Mr. Speaker Sir. I would like to take this opportunity to thank the Honourable Members for the overwhelming support towards this Motion, I do not have much to add because much has been covered. Thank you very much Honourable Members for that support.
